

SLOPING BLOCKS • BUSHFIRE ZONES • TERMITE AREAS • FLOOD ZONES • REACTIVE SOILS

“Can you provide a flooring solution for sloping blocks and bushfire areas that’s easy to install?”

Yes,

DuraGal
Flooring System®

Build a better floor with a DuraGal Flooring System®.

The DuraGal Flooring System® is assembled on site and requires no welding. Simple screwed connections make construction fast and easy. The DuraGal Flooring System® meets the industry durability guideline by including fully galvanised Australian Made tubular sections, which are corrosion resistant, won't rot, warp or twist.

Plus the strength of steel allows for greater spans and reduces the impact of site works and sediment control issues.

we can.

SLOPING BLOCKS • BUSHFIRE ZONES • TERMITE AREAS • FLOOD ZONES • REACTIVE SOILS

EASY TO INSTALL & CONNECT • ADJUSTABLE PIERS • LARGE SPANS • FULLY GALVANISED

No other system makes as much sense...

Concrete slabs provide a very solid base upon which to build, but ground movement can cause the slab to crack. Lay a concrete slab and it's impossible to change anything underneath or install underfloor services. What's more, slabs can create a highway for termites to attack wooden frames.

Timber sub-flooring gives access beneath the house and assist the house to breathe. However a timber sub-floor can be a real treat for termites and pests. Timber can rot, warp, swell and contract in variable conditions.

A DuraGal® Flooring System doesn't warp, twist, crack or shrink. It cannot be affected by termites or pests. It allows access to all services; pipes, hot and cold water, gas supplies and central heating. The flooring system can be assembled on site without welding and the piers are totally height adjustable if and when the land settles.

Best of all, DuraGal® can save you thousands of dollars in site preparation costs and maintenance.

The DuraGal® Flooring System is perfect for home additions such as verandahs and decks which can add value and appeal to your new home.

Contact OneSteel Metalcentre for a competitive m² package on all components including steel, caps, fixings & fittings.
